EdPsych Online

The Master of Science Degree in Educational Psychology (with concentrations in Adult Education and Applied Educational Psychology):

- Focuses on concepts, principles, techniques, and models of educational psychology as they are used to facilitate teaching and learning and the creation of effective environments for learners of all ages.
- Is designed for professionals working in school settings, colleges and universities, non-profits, and business and government as well as those preparing for work in those and related areas.
- May be used as a stepping stone for entering a doctoral program in Adult Learning, Education, Educational Psychology, Learning Environments and Educational Studies, School Psychology, or related areas.

For more information about the degree, curriculum, faculty, and how to apply, see details at:
