(865) 974-6444

**Concentration Descriptions**

**Adult Education** focuses on the advanced educational needs of professionals who work with adults in a host of settings. The concentration includes coursework in such areas as adult learning and development, program planning, reflective practice, professional issues, and research.

**Applied Educational Psychology** focuses on concepts, principles, techniques, and models of educational psychology as they are used to facilitate teaching and learning and the creation of effective classroom environments for learners of all ages.

**Curriculum**

All courses are offered during the evening via distance education, catering to the schedule of most working adults. The majority of courses utilize synchronous technology, in which professor and students “synch up” at a designated time for a live, interactive session.

The degree is completed in two years by taking two courses per semester, all year round. We do not admit individuals who do not intend to stick to this program schedule.

Current curriculum includes:

**Core Courses (24 hours)**

- EDPY 506 Introduction to Ed Research Foundations
